JTS Johanson Transportation Service

Truckload Solutions

Handling full capacity loads with ease.

JTS offers supply chain solutions for full trailer capacity loads with the utmost in flexibility and safety. We work hard to exceed your unique business needs by leveraging a variety of reliable transportation options to handle the movement of goods anywhere in the U.S. and Canada.

If you want your bulk freight to arrive as quickly as possible, and at a competitive price, let JTS help coordinate your shipments via our Full Truckload service for both perishable and non-perishable freight. Whether you need dedicated dock-to dock, port-to-port, or dock-to-port solutions, your goods are sent directly with no handling en route, so the risk of damaged goods is greatly minimized.

Our **Perishable** division understands your fresh food shipping requirements. Since 1971, our experienced team has been handling temperature-sensitive commodities, using 53-foot temperature-controlled trailers and food-grade tankers.

Our **Non-Perishable** division offers several trailer options, including 53-foot dry vans, flat beds, step decks and curtain side trailers.

Our commitment to providing the highest level of service is what makes JTS unique in the world of 3PLs. To ensure only the most qualified carriers are moving your freight, our Carrier Relations team verifies operating authority and carrier insurance, checks safety ratings and references and tracks fraudulent activities in the marketplace on a daily basis for your total peace of mind.

Our knowledgeable team will help protect your shipments and simplify the shipping process with every load you entrust to us, by:

- Monitoring all pick-ups, conveying loading instructions, and maintaining communication with carriers to confirm that on-time performance standards are met.
- Negotiating the best carrier rates possible to increase your profitability.
- 24/7, reliable, personalized service and quick responsiveness to your issues.
- Supporting and enforcing your seal policies.
- Simplified billing, claims filing and processing.

JTS facilitates online management and instant visibility into supply chain communications for our customers with our cloud-based TMS, *FreightOptixx™*, which allows users to optimize orders, track shipments, get instant rate quotes, consolidate shipments, run analytics reports, manage shipping documents and view invoices for Truckload, LTL, Rail Intermodal and International shipments.

Truckload Solutions

Respect is earned with every shipment we manage, and we have a proven record of success, offering a level of dedicated service unmatched in the industry. This respect has earned us the continued business of the nation's top shippers.

JTS has proudly partnered with the following organizations, so we can stay on top of the latest developments in the industries in which we serve.
