FOR IMMEDIATE RELEASE

JTS Named to Food Logistics' 2017 Top 3PL & Cold Storage Providers List

Fresno, CA – September 8, 2017 -- JTS (Johanson Transportation Service), a leading third-party supply chain solutions provider, announces that *Food Logistics*, the only publication dedicated to covering the movement of product through the global food supply chain, has named JTS to its 2017 Top 3PL & Cold Storage Providers list. The Top 3PL & Cold Storage Providers list serves as a resource guide of third-party logistics and cold storage providers whose products and services are critical for companies in the global food and beverage supply chain.

"The global food supply chain is faced with unprecedented challenges, from consolidation and M&A in the grocery sector to the impact of the Food Safety Modernization Act (FSMA), among others," remarked Lara L. Sowinski, editorial director, Food Logistics and Supply & Demand Chain Executive. *"Companies that earned a spot on the Food Logistics' 2017 Top 3PL & Cold Storage Providers list are critical to supporting the agricultural community, importers/exporters, food manufacturers, grocery retailers, foodservice distributors and others that depend on them to support the growing complexities of the global food supply chain."*

"The logistics of food and beverage products can be an overwhelming process for many shippers," says VP of Operations, Randy Gabardi. *"There are specific timelines to meet, food quality regulations to be strictly enforced, seal policies to be followed, precise temperature requirements, and documentation to be recorded. JTS supports our customers by giving them access to an entire network of resources dedicated to the safe transportation of their goods. We are proud that our hard work and expertise in food and beverage supply chain management has been recognized by Food Logistics."*

This year's Top 3PL & Cold Storage Providers list appeared in the August 2017 issue of *Food Logistics*, as well as online at www.foodlogistics.com.
