FOR IMMEDIATE RELEASE

JTS Recognized by Inbound Logistics as a Top 100 Logistics IT Provider

Fresno, CA – April 7, 2017 – JTS (Johanson Transportation Service), a leading third-party supply chain solutions provider, announces they have been recognized by *Inbound Logistics Magazine* as a **2017 Top 100 Logistics IT Provider**, which will appear in the April issue of the magazine.

“JTS is committed to investing in our information technology, namely our cutting-edge cloud-based FreightOptixx™ TMS, and ensuring that our customers receive a dynamic system that will continuously evolve and allow customization to meet their particular business needs. We are honored and pleased to be named as a Top 100 Logistics IT Provider,” says Larry Johanson, President and CEO of JTS.

The cloud-based FreightOptixx™ TMS is available as a value-added service and on a per transaction fee schedule to select customers and enables them to leverage JTS technology innovations that integrate with their own enterprise systems without the need for investing in a TMS of their own.

FreightOptixx™ gives users access to every detail in their supply chain data, all in one online location, with complete visibility into all their freight communications from start to finish. JTS customers can increase their service levels to their own customers, and it saves them time on manual logistics tasks.

For users shipping via Full Truckload, Less-than-Truckload, Rail Intermodal and International freight, FreightOptixx™ empowers users to easily track their shipments, request instant spot rate quotes from multiple carriers displayed on one screen for comparison, optimize freight orders, create and view all shipping documents, consolidate their shipments using the lowest cost optimizer tool, send pick-up instructions to the carrier electronically, view invoices and accounts payable status and run analytics reports for on-time delivery, freight cost reconciliation, exceptions, freight class and much more.

Carriers can enter available trucks, update tracing details for active loads, view pick and drop information, run load sheet reports, report issues, check mileage, create route maps, and view available loads.

About JTS (Johanson Transportation Service)

JTS is a third-party solutions provider, licensed property broker, licensed ocean freight forwarder, and NVOCC. We help companies manage their supply chain with Justified Timely Solutions® that meet their unique business challenges. With a network of truck, air, ocean and rail intermodal transportation, JTS provides a full portfolio of domestic and international services, including logistics management, consulting and a cloud-based TMS, FreightOptixx™, which facilitates the online management of seamless supply-chain communications for its customers. JTS is headquartered in Fresno, CA and has five regional offices in the U.S., located in: Roseville, CA; Salem, OR; Tigard, OR; Madison, WI; and, Denville, NJ. www.johansontrans.com
