FOR IMMEDIATE RELEASE

Johanson Transportation Service Launches New Website

Fresno, CA – March 17, 2017 – JTS (Johanson Transportation Service), a leading third-party supply chain solutions provider, announces the launch of their new web site at www.johansontrans.com.

The completely redesigned website has a clean, modern design, a more streamlined navigation and is intended to enhance the user experience by giving them access to the information they need faster and easier than ever before.

“We are confident that the new design will be well-received as more interactive and user-friendly by our existing and prospective shippers and carriers,” says President/CEO Larry Johanson.

Customers using the cloud-based FreightOptixx™ TMS will have a newly designed login area, which now aligns with the logo and color scheme of FreightOptixx™ where shippers and carriers can manage all freight activities in one, easy to access location online. Logistics tasks for shippers such as optimizing orders, tracking shipments, running analytics reports, viewing shipping documents and accounts payable status are all done within the TMS. Carriers can save time using the TMS to find available loads, enter tracing information, enter available equipment and check route mileage in one location.

The site is optimized to format to any mobile device.

About JTS (Johanson Transportation Service)

JTS is a third-party solutions provider, licensed property broker, licensed ocean freight forwarder, and NVOCC. We help companies manage their supply chain with Justified Timely Solutions® that meet their unique business challenges.
